

Manufacturing Technician I

Position Overview

Quality Biological, Inc. (QBI) is a manufacturing biotechnology company committed to delivering relevant, innovative, high quality products for the life science industry. We have built our reputation and standing in the market for 35 years through providing exemplary service, and a willingness to “go the extra mile” in helping our customers.

We are looking for a talented individual to join our Manufacturing team.

Responsibilities

- Perform cleaning and preparation of all equipment necessary for the daily manufacturing of products in the preparation area and clean room.
- Prepare clean or sterile equipment as necessary for routine aseptic operations
- Work under general supervision of more experienced Technicians or Manufacturing Supervisor to produce cell culture and molecular biology reagents
- Adhere to QBI policies and SOP's
- Complete all necessary documentation in a manner that complies with Good Documentation Practices as tasks are performed.
- Independently setup, assemble, and operate all equipment necessary for the daily manufacturing of products, especially related to aseptic operations in the sterile cleanroom in accordance with current industry and QBI standards.
- Effectively troubleshoot equipment during operation to ensure effective and efficient operations while maintaining high quality and service to the client.
- Perform housekeeping, plant upkeep, and sanitization activities throughout production area as required

Education/Experience/Skills

- A.A. degree or 1-2 years equivalent work experience required.
- Understanding of good lab practices and techniques with experience in manufacturing environment
- Knowledge of analytical techniques, understanding of proper chemical handling, use, storage and disposal
- GMP and ISO 9001 experience preferred
- Some PC and software application skills required.
- Good interpersonal and communication skills are a must

Physical Requirements

- Must be able to stand/operate in sterile cleanroom for 3-4 hours
- Must have strong visual acuity as well as good eye/hand coordination
- Must be able to lift/carry/pull 25 lbs

Interested candidates should send cover letter and resume to hr@qualitybiological.com.
